Erik Nilsen

Expert In Front-end & 2+ Years Of Experience In Back-end

✉ nameless20001027@gmail.com   📍 Grensen 9 Oslo , 0159

Personal Profile

I am a front-end (React, HTML, CSS, JavaScript) expert with 4+ years of experience developing dynamic and high-performance web applications.
I also have 2+ years of back-end (Node.js, PHP, MySQL, MongoDB) development experience.
I am passionate about building clean, scalable solutions that enhance user experience and efficiently achieve business goals. My strengths are accountability and honesty.

Education

Master's degree programs
Oct 2018 - Apr 2020

Kristiania University College

- Earned a Master's degree from Kristiania University College, demonstrating advanced knowledge in the chosen field of study.
- Engaged in rigorous coursework and collaborative projects, honing critical thinking and problem-solving skills.
- Developed a strong foundation in research methodologies, preparing for professional challenges and contributions to the industry.

Work Experience

Expert in Front-end
Apr 2022 - Jan 2024

Kelhel

I developed a front-end project that significantly increased user engagement and improved overall website performance.
And I used React Native Expo to build not only the web but also the mobile front-end.

Full Stack Developer
Apr 2024 - Feb 2025

Diversity Cyber Council

As a full stack developer, I developed a project that significantly increased user engagement and improved overall website performance.
I contributed to the enhancement of security protocols, ensuring compliance with industry standards and safeguarding sensitive data.
